

*Hassle-Free Stereo Microphone for Musicians
Needs no preamp, no stand, no boom, no shock mount.*

The Musician's Ear™
by Performance Recordings®

Lies on floor, yet hears you well, even from a distance.

Plugs into line input of any recorder. No need for “mike” input. (Preamps are built in.)

Intended for practice, lessons and rehearsals, not for studio-quality recording (though the sound quality is better than it has any right to be).

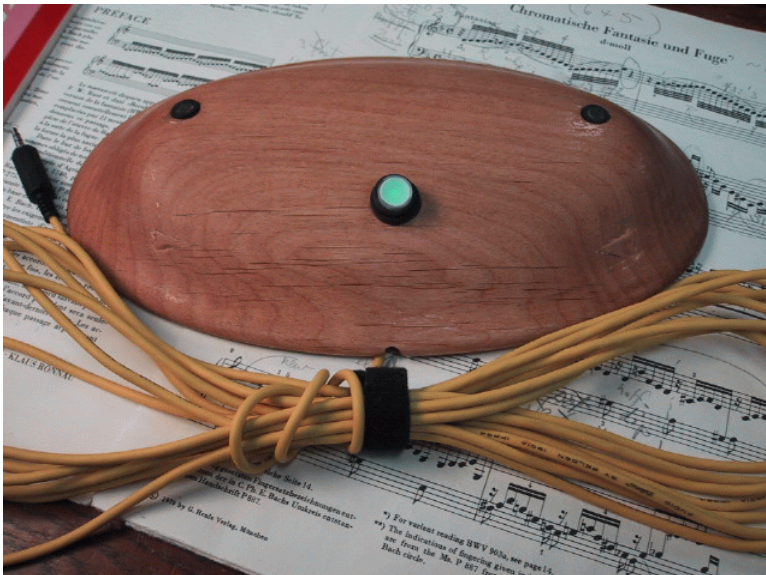

Hear the Ear at <http://www.performancerecordings.com/ear.html>.

Order the Ear by writing to info@performancerecordings.com.

Dimensions: Smaller than a sheet of typing paper (but thicker): 10.5 x 6.75 x 1.5 inches.

Weight: 1 lb., 6 oz. with batteries (*not included*) and cable.

Price: \$695. (Will go up in Fall, 2002.)

Features: *Pilot light* is also battery-life indicator. *Protection circuitry* prevents damage from wrong insertion of batteries.
